So how can you tell if you're translating a sentence of this pattern to Spanish if "that" should be translated as que or de que? Almost always, if you can change "that" to "which" and the sentence still makes sense, "that" is being used as a relative pronoun and you should use que. Otherwise, use de que. See how in the following sentences either "which" or "that" makes sense (although "that" is preferred by many grammarians): to see if there is temporary guidance issued by NICE in relation to the management of this condition, which may vary from the information given below.
